BF&S General Services Contract

As you'll recall the town has a number of general services contracts with various professional service providers. BF&S our engineering firm is one of those that we have had a long term GSA in place. In review the contract hadn't been updated in a number of years, so I wanted to get an updated one in place for the town. Additionally, I would like BF&S to work on updating our town standards due to the influx of new materials and better-quality materials being available for construction of town infrastructure in subdivisions. The cost for the update would be split amongst the water, sewer, and street dept.

Pete Olson
Town Manager
