11/13/2014

The Town is working with Delaware County Economic Development on the expansion of Water, Sewer and Street at Park 1. We have asked for a proposal from BF&S to look at engineering associated with the expansion and have had conversation with the Delaware County Redevelopment Corporation about utilizing TIF dollars for costs associated with the expansion.

I am recommending a conditional approval to have BF&S design to 30% of the plans, assuming that the Delaware County Redevelopment Corp will reimburse for the cost associated with that engineering. They are doing some final number crunching but I expect to have the go ahead from them in the coming week.

Pete Olson
Town Manager
