### **Estimate to update Yorktown Fire Department Sign**

The FD is updating various signage around the building and planning some upgrades. They've recently completed a Mural of their patch on the wall which will get lighting to be seen at night. The next step is to do an upgrade to the sign in the front, with the thought process that the sign will ultimately move to the back with a different sign in the front with a more professional look. While they are working on the design and options for the front, they would like to make the upgrades to the front sign. They have the money available in their budget and I would recommend updating the sign.
