Tim and Freddie have recently been looking at street sweepers to replace our current unit. After looking at several models and obtaining several quotes, I am recommending that we purchase a Tymco 600 street sweeper from the City of Noblesville for \$60,000.

The sweeper has been meticulously maintained and would be available for a much lower price than a brand-new unit. The Tymco 600 is used by many municipalities throughout the state, including the Muncie Sanitary District, the City of Westfield, and several others. I have attached a product sheet for the Tymco 600 as well as pictures of the sweeper in Noblesville.

Based on the response I received from last month's email to Council, there seems to be a desire to go ahead with the purchase of the sweeper. The vehicle will be put to use immediately so we can begin sweeping away debris from recent storm damage.
