The School recently purchased the property on the south side of River Rd east of CR 600 W. The intention is to build a new transportation facility, as the expansion of Pleasant View Elementary will displace current parking, which requires the school system to relocate parking for high school students into the south parking lot where the corporation buses currently park.

The school system applied for rezoning of the purchased property, and the plan commission has recommended the change from Residential to Institutional to meet the zoning requirements for the parcel.
