Steamer Power Washer

After investing on updates to the Snow Plow equipment, we are looking at options to help keep corrosion from overtaking the steel where salt is contacting the vehicles. The best option for this is to power wash with steam the vehicles after the salt application. We obtained quotes for steamer power washer to help remove the salt and chemical grime and residue left on the vehicle.

We also looked for unit that is portable enough that it could be used at other locations in the community, like restrooms at Morrow's Meadow, Splash Pad, water towers, well's, etc, etc

It is my recommendation that we approve the purchase of the unit from advanced Auto and that we divide the cost between Water, Sewer, Street & Park

Pete
