January 24, 2022

Mr. Pete Olson, Town Manger
Town of Yorktown, Indiana
9312 W. Smith Street
Yorktown, Indiana 47396

Dear Mr. Olson:

This is to confirm our communities request that a Stop Sign be installed on Freedom Drive at its intersection with Patriot Drive, both of which are city streets.

This intersection is the only exit that residents of our 62 condo unit community and the residents from the 27 condo units in the Phase II development have from their respective communities. Between us we have in excess of 100 senior residents in our two communities and there have been a number of near missies at this intersections, even though there is a stop sign coming out of our community and a yield sign coming out of the Phase II community.

Freedom Drive ends at this intersection. This is where the city street Patriot Drive begins.

A Stop Sign on Freedom Drive at this intersection, in our opinion, will lessen the possibility of an accident that could potentially cause serious injury to one of our senior citizens. Therefore, the reason for this request.

Your assistance in helping to resolve this problem will be greatly appreciated.

Sincerely

Hal Musser, President
