Supplemental Contract Nebo Bridge Sidewalk

We have been working with Delaware County on the Nebo Bridge Sidewalk/Road Diet project and planning for the roundabout at Nebo and River Rd. After speaking with Angie Moyer, the county has asked us to include in this project some design work for the bridge joints and bridge deck to allow some work to be done at the same time that the town will be doing construction on the bridge. This is an efficient use of resources and time to help provide for the long term maintenance of the bridge. This contract allows BF&S to help the county with the design, and the county has match money for the project.

Part of this process has been an evaluation of the entire Nebo road, at this time BF&S is recommending that we take the current 4 lane section down to a 3 lane road to better interact with the future roundabout. A majority of this will be handled with striping of the road which ultimately means that should the road need to be expanded in the future no additional right of way will be needed south of River Rd.

Pete
