Supplemental Contract Canal St

The Town has been working with BF&S to acquire right of way vs entire parcels associated with the downtown. This has included new appraisals as well as some additional engineering to help move some utility resources closer together to prevent the need to acquire homes for the downtown project. Since we started some homes have been acquired so the services provided in this document are a not to exceed price and if the purchasing agents are not working on a parcel the town will not see a bill.

We have notified homeowners that our purchase offers for the entire properties have been rescinded but that the town is willing to discuss those offers, while new offers have been made based upon the value of the right of way needed for the project.
