### **Ordinance 800**

Clerk Treasurer Turner started working on this ordinance in August, prior to passage in September he had received some additional guidance from the SBOA on how the charges should be applied to ensure a proper audit, so he asked the board at that time to not until he had the opportunity to modify the wording to comply with the guidance provided. He has since done that and is asking for approval.

The thrust behind this ordinance is additional charges from financial institutions related to bad check fees ultimately passed along to the town. The ordinance allows the Town to collect those fees from the individual writing the check; additionally this ordinance allows the town to collect administrative fees on top of the bank fees to cover expenses associated with the time spent by our utility billing department.

Pete Olson  
Town Manager
