Danko Skid Unit for Fire Truck

This invoice is for the requested purchase of a 250 gallon skid unit to fit within the new Squad (F350) that we ordered. This unit will allow us to duplicate the functionality of T-69 as both a medical unit and also a field / brush truck unit. This skid unit will slide into the bed of the vehicle, carry 250 gallons of water, a pump and also a rolled section of hose. This allows the truck to be mobile and fight field fires that are uneasily accessible.

There will be an additional charge for the installation of the unit, once the truck bed is delivered.

Pete
