Digester Lid Disposal

In February we had one of the digester lids removed at the Waste Water Treatment plant as damage had caused the lid to sink and no longer function properly. The plan at that time was to remove and evaluate for repair or to consider alternative covers.

BF&S and Thieneman have both evaluated the lid coming to the conclusion that the lid is not salvageable. I am recommending that we allow Thieneman to dispose of the lid.

Respectfully,

Pete Olson
Town Manager
