

## **PROPOSAL**

### **Issue:**

The John Deere 5200 tractor we use for mowing the park is in need of major repairs. Reynolds Farm Equipment has diagnosed the issues and has provided an estimate of over \$10,000 for the needed repairs.

### **Proposal:**

The value of the existing tractor does not warrant an investment of this amount. Reynolds Farm Equipment has provided a quote for a new John Deere 5050E utility tractor. We had discussed trading in the old JD 5200, but the trade-in value is only \$700 so Tim Caldwell would like to keep it as a back-up.

### **Cost:**

\$30,725

*Cost to be paid ARPA funds designated for Park equipment.*
