

PROPOSAL

Issue:

Every winter we must close down the restrooms at Morrow's Meadow to keep the water pipes from freezing. We would like to be able to keep the restrooms open year-round.

Proposal:

Parks Superintendent Josh Baker has developed a solution by installing two mini-split heat and air systems for the restrooms. He has solicited the following quote from Hometown Heating & Cooling for the mini split install. Parks staff will insulate the attic and add a cage around the units to avoid damage by vandals.

Cost:

\$6,848.00

Cost to be paid from Parks Repairs & Maintenance 2204001336
