

PROPOSAL

Issue:

At the July 18, 2022 Town Council meeting, the purchase of two 2022 Chevy Silverado 5500 trucks was approved for the street department to be used as snow plows. Tim Caldwell received notice this week that those vehicles will not be built.

Proposal:

Hare Chevrolet has quoted two 2023 Chevy Silverado trucks as replacements. There is a slight increase in price over the 2022 model. These can be ordered in December. We do not know the turnaround time for production on these trucks.

Cost:

\$3920 additional for the purchase of the two trucks over what was previously approved.

Cost to be paid from Street
