

## **PROPOSAL**

### **Issue:**

Every light at the Jackson/Nebo roundabout is dim. A few are broken and we have been waiting for two years for replacements. Photos of the existing lights are attached.

### **Proposal:**

Tim Caldwell and Dan Flanagan met with representatives from Holophane who suggested replacing all the lights at the roundabout. This quote is for the same type of light pole that we use downtown along Smith Street. By utilizing the same type pole and the same manufacturer, we will be able to get more timely replacements when a pole is hit by a vehicle or is in need of repair.

### **Cost:**

\$9497.24 + shipping

*Cost to be paid from Street.*
