

## **PROPOSAL**

### **Issue:**

The buildings at the Park One Water site need roof repairs. The rubber roof is leaking and has degraded past the point of repair. There is also a small outbuilding that needs reshingled.

### **Proposal:**

Multiple quotes for the work were solicited. West and Sons Construction has extra materials on hand and were able to underquote the other companies. The Water Department is recommending we accept their quote.

### **Cost:**

\$4200.00

*Cost to be paid from ARPA Water*
