

PROPOSAL

Issue:

The 2004 truck used by the water department has finally failed and needs to be replaced.

Proposal:

We received multiple quotes for a replacement truck and recommend the purchase of a 1-ton Chevrolet crew cab work truck with a utility bed. We believe this truck is a good fit for the needs of the water department. We recommend this purchase from Tom Gill Chevrolet.

Cost:

\$67,174.00

Cost to be paid from ARPA Water
