

## **PROPOSAL**

### **Issue:**

Last month Council approved restoration of a section of clay sanitary sewer pipe on W. Colony Drive. Another section in that area has also been found to be failing. This section leads to the approved Justin Apartments, so it is imperative that it be repaired.

### **Proposal:**

We solicited three quotes for the needed repair. NuFlow Indy (attached) was the lowest responsive quote.

### **Cost:**

\$111,250.00

*Cost to be paid from Sewer Depreciation*
