Ordinance 728

One of our officers during the course of duty ruptured and tore his Achilles tendon. The recovery time for particular injury can be as long as one year. This will put a significant amount of pressure on the department as we have just started a new calendar year and the employees have training, vacations and other items that will make it difficult to schedule proper coverage in the community. In talking with Marshal St John he has proposed utilizing a current ILEA graduate as a part time employee for approximately 3 shifts a week. This would not make them eligible for insurance or other benefits. It is the belief of the Marshal that they will have a candidate that is a current officer in another jurisdiction in the area fill the position. The budget shouldn't be impacted as workers compensation will cover the salary of the current officer who is recovering allowing his salary line item to cover the part time pay.
