Yorktown/Delaware County Regional Waste Water District Contract

This agreement sets out the rates and capacity usage for Delaware County Regional Waste District (DCRWD) at the Yorktown Treatment Plant. The Indiana Finance Authority has asked that both the Town and District finalize a new contract for the length of the bond associated with the treatment plant improvements. The Town and District have been working for the last few weeks on finalizing the details of the contract.

I would recommend passage of this contract as it provides the necessary tool for calculating rates for the length of the bond.

Respectfully,

Pete Olson
Town Manager
