A final plan has been devised to removing the remaining overhead wires out of the Canal St Right of Way from Walnut to Meadow View Lane. Some new transformers will be placed on Town owned property. Working with BF&S, we advertised and accepted bids for the relocation work associated with private residences.

Attached is the sole bid provided by Reid Electric LLC. The company has been working on the project doing other work that was part of the original bid. They have performed admirably and have been part of the solution finding for this project.

I recommend awarding the bid, the original bond has room for the additional expenditure.

Pete Olson  
Town Manager
