The American Recovery Plan Act

In 2021 Congress directed funds to all state, county, and municipal government entities. Yorktown in two different payments will receive approximately \$3,400,000 with the thought that those funds to be utilized to help with relief to citizens due to the coronavirus, relief to businesses due to the lack of patronage, to encourage additional visitation and relocation to communities by participating in outdoor enhancements or to help governments replace revenue that lacked due to lack of residential and business activity in the community.

Final rules have recently been released and there have been various changes made for entities in our size that reduce the stipulations for use of the money and reporting of the money. I have attached proposed usage of some of the funds, understanding that the Town is looking to bolster help for community members, businesses and lost revenue in the town funds overall.

You will see in the proposals that this does not obligate every dollar and makes some plans that if successful I would recommend the council identify as possibilities to expand.

Pete Olson
Town Manager
