### **General Services Contract – Context**

There are various professional services that we often solicit help with including engineering, planning/zoning, and other small design operations. During the design of the downtown redevelopment plans we contracted with Context Design to provide much of Architectural work and help with the downtown overlay. As we move out of the construction and design aspects, there are still times when we will need help with implementation. I've asked Context to provide a general services contract so that we may continue the relationship and have professional help on various projects as needed. We hold a similar general services contract with BF&S for our infrastructure needs.

I would recommend approval of the general services contract.

Pete Olson  
Town Manager
