

**SALT SPREADER REPAIR PROPOSAL  
2007 DUMP TRUCK/SNOW PLOW**

**Issue:**

The conveyor belt on the salt spreader attached to the 2007 dump truck has broken. This truck is now out of service during winter season.

**Proposal:**

Clark Truck Equipment has submitted a quote for the parts to repair the salt spreader. This quote does not include shipping or the labor to install. This spreader is built into the truck so is not something our staff can repair in-house.

**Cost:**

\$4,725.00 + freight & labor (cost to be determined)

*Cost to be paid from Street Department.*
