### **SCADA equipment for Water System**

In 2016 we finalized the construction of Well 4 utilizing State Revolving-Loan Funds (SRF) which provide a low interest rate for utility construction and improvements. At the conclusion of the project the Town had an excess of dollars from the SRF project. Matt Spidel from BF&S, Wayne and I sat down and discussed current issues in the Water department and I am recommending that we utilize some of the dollars left from the SRF program to increase our supervisory control and data acquisition (SCADA) equipment which will increase efficiencies in data collection for our operators and allow better communication when problems occur. BF&S solicited bids for the new equipment in which we received 2 bids. I am recommending that we award peerless for both the base work and alternate bid to coordinate both our local system and the system at Park 1.

Pete Olson  
Town Manager
