## Turf Batwing® Mowers

Turf Batwing® Mowers

TBW180

Our flexible wing finish mowers feature Woods' proven cutting deck in a three-gang configuration mounted to a heavy-duty trailer.

- Carrier bearing on the CV (constant velocity) input driveline provides support, making it easier to attach to the tractor and allowing tighter turns (not available on TBW150C)
- Superior cutting capabilities are combined with contoured wing decks to let you quickly cut large, uneven areas of turf without sacrificing cut quality
- Rounded front, tapered rear deck design allows mowing close to objects without damage
- Round skid rod glides deck bottom over roots and uneven turf — adding strength to the deck skirt
- Standard six-year gearbox limited warranty and three-year spindle warranty (not available on TBW150C)
- Floating hitch design flexes to allow the mower to follow the terrain with less stress and wear on the tractor drawbar. Adjustable to allow better fit on multiple tractor drawbar heights. Standard on the TBW144, TBW180 and TBW204

## Transport Latching System

The transport latching system automatically engages when the decks are raised into transport position. Simply pull the release rope or engage the optional hydraulic latch release to lower the decks into the operating position with minimum effort.

### Folds for Storage

With a folded transport width of only 93 inches the TBW150C can fit into a standard 8-foot garage door

## Tractor PTO Range: 25 - 60 hp

### Estate Model

This 12.5-foot mower provides a beautifully finished cut making short work of large lawns. Based on testimonials, the TBW150C could reduce two days of mowing into as little as four-and-a-half hours.

#### Model

**TBW150C** 12.5-foot cutting width

- Blade tip speed: 16,200 fpm
- Decks are designed with "box" construction which adds structural strength
- Three decks mounted to heavy-duty trailer for triple cut capacity; mow up to seven acres per hour at five miles per hour
- Anti-scalp rollers standard

**TBW150C**  
shown with optional  
chain shielding\*

**\*NOTE:** The TBW150C mower passes all applicable safety standards for thrown objects and blade contact. However, if the unit will be used in areas where the possibility of thrown objects could be hazardous to persons or property, it is strongly recommended that optional chain shielding be used for extra protection.

## Turf Batwing® Mowers

Tractor PTO Range:  
**30 – 80 hp**

### Commercial Models

**Woods commercial Turf Batwing® finish mowers are designed for outstanding cut quality and built for a long, durable life.**

#### Models

<b>TBW144</b>	12-foot cutting width
<b>TBW180</b>	15-foot cutting width
<b>TBW204</b>	17-foot cutting width

- Blade tip speeds: 18,000 fpm
- Optional mulching kit available on the TBW180 and TBW204; highway light kit and anti-scalp roller options available on all three models
- Ten large caster wheels provide even cut on rough ground

### Durable Sheaves, Bushings and Spindles

Cast-iron belt sheaves with taper lock bushings and tapered roller bearings in cast-iron spindles offer exceptional strength and performance. Spindles carry a 3-year warranty.

### Automatic Idler Corrects Belt Tension

Spring loaded idler automatically maintains the correct belt tension for significantly increased belt life.

### Hydraulic Latch Release

The optional hydraulic cylinder releases the transport lock to lower the decks into mowing position.
