As part of the Canal St Project, Mr. Townsend and I have been working with representatives of AT&T which own the building at 9200 W Canal. Due to the new alignment of the street, the discussion has focused on where AT&T will be able to park their vehicles, store their trash container and access their building.

We have worked out a settlement that benefits both the community and AT&T, relocating their overnight parking to Walnut St and providing an easement on Town owned property for access to the garbage container and west door of the building.

I would recommend the approval of the documents.

Pete Olson
Town Manager
