Construction of Sewer Lateral

The Muncie Career Center is currently constructing a house on South Walnut Street and has purchased additional lots adjacent for future construction. After inspection it has been determined that during construction of the subdivision no sewer lateral were placed on those lots. Due to the depth of the sewer in that area which is prohibitive of town employees installing the laterals, Tim has obtained quotes to install laterals for the 3 lots. I recommend utilizing the lower quote provider, Delaware Construction and Landscape to place the laterals for the lots. The funds will come from the sewer department.
