### **Supplemental Agreement with BF&S**

As the work at the Waste Water Treatment Plant has started to come to completion, there are some additional funds that are available in the SRF money that need to be allocated for additional projects at the plant. Attached is the agreement with BF&S to work on engineering for those projects. Those items include some additional motors, blowers and other apparatus at the digester building along with some additional doors and hardware that needs to be complete in addition to some regulator paperwork.

I recommend entering into the agreement with BF&S.

Pete Olson  
Town Manager
