Utility Improvement Project – SR 332/I69

The members of the RFPQ committee met with the proposed developers for the utility line extension from the southwest side of Interstate 69/State Route 332 to the North Side in addition to the extending water north of Jackson in the NE quadrant. This is a project that the county has pledged ARPA funds to and we are requesting that council approved the recommended developer to allow them to enter into final design phase of the project and request funds from the county.
