

PROPOSAL

Issue:

The three Toyota pick-up trucks used by the Yorktown Police Department do not have in-car radios. The officers driving these trucks have had to use their portable radios.

Proposal:

Chief Walthour received a quote from J & K Communications, Inc. for three radios, including installation and recommends approving the purchase. We believe this is a good use of opioid settlement funds as these radios will assist our officers in responding to overdoses.

Cost:

\$11,946.38

Cost to be paid from Opioid Settlement Restricted Fund
