## Overview

I would be designing, planting, watering, and maintaining the flower pots in downtown Yorktown starting January 1, 2024 through December 31, 2026.

## Timelines

1. Spring planting which will include a variety of miniature daffodil bulbs that were already planted in the fall 2023 and pansies which will be installed by May 1st.
2. Summer planting will include a variety of different kinds of full sun/shade type flowers which will be installed by June 15th.
3. Fall freshen-up which will consist of replacing some of the full sun type flowers with fall-inspired flowers such as mums, decorative cabbage, pumpkins, and miniature straw bales will be installed by September 15th.
4. Holiday-inspired pots will consist of pine branches, pine cones, and various other winter decorations which will be installed by November 15th. Holiday pots will be freshened up in January for Valentine's so we aren't looking at the same pot design for 4 months in a row.

## Specifications

Kylee Eller along with her family will be planting, maintaining, fertilizing, and watering the 23 pots located in downtown Yorktown. We will be maintaining the pots through different plantings throughout the entire year. We will plan to water the pots 3-4 times a week during the warmer months and maintain the pots in the colder months so they look nice for our community throughout the entire contract duration.
