Town Council
Town of Yorktown, Indiana

December 9, 2024

Town Council Members,

It was brought to the attention of the clerk treasurer's office by the Water Superintendent, Jamie Mixell, that the Boyce Key-Utility software was not reading water meters correctly. After many attempts to work with Boyce, the conclusion was made that the software was no longer meeting the needs of the Utility Office. In addition, the clerk treasurer and deputy clerk treasurers discovered issues with the Fund Accounting Software frequently crashing and running slowly. Furthermore, the clerk treasurer and deputy clerk treasurers have become increasingly dissatisfied with the Paycom payroll software specifically in regards to employee time off accruals not being accurate.

Based upon recommendations from trusted individuals, we researched Frey Municipal Software and Tyler Technologies ERP Pro software. The utility accounting clerk also previewed the new software and was impressed with the improvements that the new software would provide in completing job tasks more efficiently. After comparing the proposals and the cost from both companies, we selected and accepted the proposal from Frey. The clerk treasurer, deputy clerk treasurers and the utility accounting clerk request the council's approval of a 5 year agreement with Frey Municipal Software effective, January 2025.

Sincerely,

Mr. Lance Turner
Clerk Treasurer
